

How to remove acmaxx lens armor UV filter and clean it:

STEP 1.

After installed your ACMAXX LENS ARMOR, please keep the plastic sheet and store it in the packaging case.

STEP 2.

Insert the plastic sheet until covered at least $\frac{1}{2}$ of the UV filter.
Use the plastic sheet to in the package to lift AXMAXX LENS ARMOR up.
DO NOT use any sharp object to lift it up! It could damage your camera.

STEP 3.

Please make sure your lens surface is cleaned before applying ACMAXX LENS ARMOR UV Filter again. Use air blower or microfiber cloth to ensure no dust or finger print on it.

STEP 4.

Place LENS ARMOR UV FILTER back on to your camera.

Enjoy taking pictures!
